

SUMMARY

Aspiring Full Stack Developer with a strong foundation in Python, JavaScript, SQL, React, and Flask. Experienced in developing responsive web applications and AR-based projects through internships and academic work. Passionate about learning emerging technologies, solving real-world problems, and contributing to dynamic teams.

EDUCATION

Sudharshan Engineering College| Pudukkottai

Bachelor of Technology - Artificial Intelligence and Data Science; CGPA: 7.62

June 2021- June 2025

WORK EXPERIENCE

BY8LABS Ai private limited | Pudukkottai | intern

March 2025-August 2025

- Built scalable web applications using React (Front-end) and Flask (Back-end).
- Implemented REST APIs and integrated MongoDB for data management.
- Worked in an Agile environment, participating in code reviews and sprint planning.

Web Development Intern I internPe

June 2024-July 2024

- Developed responsive and interactive web pages using HTML, CSS, and JavaScript.
- Designed reusable UI components to improve development efficiency.
- Ensured cross-browser compatibility and deployed projects on GitHub Pages.

PROJECTS

Fake News Detection Using Large Language Models (LLMs): [Fake-News](#)

June 2025

- Fine-tuned a pre-trained LLM (GPT/BERT) with custom datasets to accurately classify fake news.
- Built a data-cleaning and preprocessing pipeline to improve detection precision and recall.
- Deployed a real-time prediction API using Flask for scalable web integration.

Portfolio Website (React + Responsive Design): [Portfolio-Website](#)

October 2025

- Developed a responsive personal portfolio using React.js to showcase projects and skills.
- Implemented smooth navigation, reusable components, and modern UI design.
- Deployed the site on Netlify for fast and reliable hosting.

Responsive Pricing Cards Web: [Responsive-Pricing-Cards](#)

August 2025

- Built a **responsive pricing layout** with **HTML**, **CSS**, and **JavaScript**.
- Added **hover effects**, **plan selection**, and **signup redirection** for a subscription model.
- Optimized textures and models for smooth cross-device performance on Instagram

3D Augmented Reality Filter with Meta Spark:

October 2024

- Designed custom 3D assets and animations to create an interactive AR filter.
- Implemented face-tracking triggers and gesture recognition for dynamic effects.
- Created an interactive 3D AR filter using Meta Spark Studio for social media platforms.

SKILLS SUMMARY

- Languages:** Python, JavaScript
 - Backend:** Flask (Web Development)
 - Databases:** SQL, MongoDB
 - Soft Skills:** Problem-solving and Positive attitude

- Frontend:** HTML, CSS, Tailwind CSS, Bootstrap, React
 - Platforms:** Visual Studio Code, Meta Spark (AR Development)
 - Tools:** GitHub, Postman – API testing, XAMPP, Thunder Client
-

CERTIFICATES

- Python Full-Stack Development --** (BY8LABS)
 - Oracle Cloud Computing --** (EduVate)
 - AWS Academy Graduate --** (AWS Academy Cloud Foundations)
 - HTML and CSS –** (LetsUpgrade)

- March 2025 – August 2025
 - April 2024
 - October 2023
 - November 2023
